space too for those bigger items that you don't always want out on the bench top. Talking of which those are easily cleaned Caesarstone tops - stylish AND practical, complimented by equally stylish splash backs and LED downlighters overhead, so you can see what you're doing!

The essential two separate living areas are here and waiting - that huge open plan family and dining area and the totally separate carpeted media room - the perfect solution particularly when the kids are young and you want to limit the noise and mess!

Mirror robes are to be found in each of the bedrooms, while the master benefits from a walk-in robe and a suitably stylish en-suite bathroom, which like the family bathroom features wall hung vanity units with Caesarstone tops, complimented by quality tiling and accessories.

Moving outside the concrete is all in place, the turf has been laid and the fencing is very nearly finished so the family pet(s) should be quite safe in the back yard. The patio area too is already in place, in this case included under the roofline of the house, so no aftermarket leaking patios here!

So, if you're looking for a thoroughly modern place to call home, with everything that you and your family could want within easy reach and much more planned for the future, then check this one out at one of my open homes or private inspection if you prefer.
