Large Warehouse With Great Access Points

This is one of the best warehouse/workshops that I have seen on the market for lease for quite a while. It's located in Picton, with easy access to the South West Highway and the Bunbury Port.

The tenancy is approximately 445m² of NLA, with 4 high roller doors, good parking, and laydown areas. This warehouse is an exceptional value. Internally, it also has LED lighting, an air-conditioned office with kitchen facilities and an ACROD toilet and shower.

The building is also very secure, with an alarm system and full fencing.
