A Superb 5 Acre Low Maintenance Property!

A property for creative people who love entertaining, who love the bush and who appreciate privacy. The house and the land are also extremely low maintenance.

This three-bedroom brick home offers a practical and considered design, featuring high ceilings and generous verandas. The interior includes a superb cook's kitchen with a butler's pantry, polished concrete floors, loads of storage, and three thoughtfully designed bathrooms. The home is also equipped with roof solar and raised garden beds, a double carport suitable for electric vehicle charging, significant water storage, and a sealed circular driveway.

Sympathetically constructed over massive bush rock, the lower level features a huge studio/workshop, suitable for all types of multi-scaled art or construction projects or possibly as a games room? The space also offers two let-down beds and its very own bathroom! Much of the 5 acres offers a healthy, restored sub-tropical rainforest which is home to over 259 indigenous species of trees, shrubs, and vines, 117 species of birds, masses of butterflies, and the annual sparkle of fireflies.

This is a very private property that blends seamlessly with the surrounding environment. Discerning buyers will appreciate the enchanting forest tracks and remarkable, thought-provoking art installations throughout. It is a property that will suit highly creative people, extended families, or those wishing to connect with a more natural environment.
