Construction of dwellings are noted throughout this now well established subdivision. People are discovering the brilliant balance of country calm and urban convenience that can be achieved in Deloraine, where community facilities are matched by community feel.

Allotments ranging in size from 1,500m² to 2,556m² deliver dimensions that ensure contemporary residences can be accompanied by expansive outdoor environs in a location where lifestyle's dual elements life and style are united aims.

Sunny aspects, space to play, room to breathe â## Greenwood Park brings a fresh residential perspective to a Tasmanian context that captures everything that makes the state such a desirable destination.

Defined as a town of historical significance, distinguished by a progressive attitude and a positive approach, Deloraine's parks, schools, shops and services are as inviting as they impressive.

The larger city centres of Launceston and Devonport are both readily reached (approx 35 minutes) while the Meander Valley's natural beauty creates a gateway to the Central Highlands, Cradle Mountain, the Great Lakes and beyond.

All blocks benefit from town water, NBN, and electricity connections. The remaining blocks are unsewered. Unsewered blocks have permits for conventional septic installations. So there is no need for an expensive aerated waste water system. The pricing schedule is available on request. Please contact Doug Marshall.
